Chairman's Message

Dear Stakeholders,

It gives me immense pleasure to present the 23rd Annual Report and the performance of the Company.

In this emerging world our company faced the challenging environment in front of its competitors and stood amongst the top in the market. The people have become health conscious and believe in pure and healthy food. Our Company provides one of the best healthy and nutritious oil to the society, and contributes to the health and nutritious value of consumers.

Such is our commitment towards quality, that despite weak global economic sentiment we have grown in our existing business verticals. Improved branded sales, better realization of oil seed extraction, effective control on costs and

positive sentiments towards our business have helped us earn better profits. This asserts the very fact why we are one of the leading FMCG (fast moving consumer goods) companies in the country.

We have ended the financial year 2015-16 with group's net profit after tax amounting to Rs. 1115.32 lakhs compared against Rs. 917.20 lakhs in previous year, whereas group turnovers was recorded for Rs. 340496.93 lakhs against Rs. 587403.59 lakhs in previous year. The figures of previous financial year includes the figures of demerged undertaking too. In fact Company has registered a growth of 25% in current year turnover as compared to the previous year (excluding the turnover of demerged undertaking in previous year).

The Composite Scheme of Arrangement was approved by Hon'ble High Court of Gujarat which became effective from July, 2015 with appointed date 01st January, 2015. The Company has grown after the demerger due to efficiency in capacity utilization and cost reduction.

The Indian housewife, both in the urban and rural sector is becoming increasingly conscious about quality and purity, thus demanding branded edible oil products. This has resulted in a shift of the Indian consumer from loose and adulterated edible oils to branded offerings. With increasing quality consciousness, rising incomes and consolidation, branded sales are likely to grow at 25-30% over the next few years.

The Indian market presents a significant growth for oil players owing to growing population, income growth and low current per capita consumption. Your company is positioned strongly to tap the opportunities. Despite the positive signs, we remain cautious and vigilant as we are exposed to volatility in commodity as well as currency fronts. We are guided by our stake holders, the industry and the nation, promoting inclusive growth.

As per feedback and response, we believe that consumers relate our brands with purity, smell and taste. Gokul Refoils' flagship brands Gokul, Tandurast, Rozana, Gurjari and Bakery Brand performed exceptionally well in the current year. Today, Gokul is positioned as the premium brand for the loyal housewife while Rojana is affordable brand. All major brands of Gokul Refoils reported robust growth for the year. Today, nearly 65% of the Company's edible oil sales come from the branded segment and retail sales are also significantly increasing in the proportion.

Your Company is in planning to launch new products like Sun Flower Refined Oil, Ground Nut Oil and Corn Oil. Company is now focusing to increase in consumer packed sales through various ATL & BTL sales promotion activities and increasing the share in food processing industries at national level.

I would like to take this opportunity to thank our dedicated and motivated employees who are the greatest asset of the Company and who have with their passion, hard work and commitment taken it to this level. We also thank our stakeholders, clients, vendors, bankers, investors, Governments, Government Agencies and partners in growth for reposing their confidence and faith in the Company. It is your trust and commitment that inspires us to set high standards of growth and performance and continue to deliver high returns to our stakeholders. We look forward to continuing on the path of excellence and profitable growth into the coming years.

Sincerely
Yours

Balvantsinh Rajput
Chairman

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS:**Industry Structure and Development :****Edible Oil Scenario****Importance of Edible Oils in the Country's Economy**

Oilseeds and edible oils are two of the most sensitive essential commodities. India is one of the largest producer of oilseeds in the world and this sector occupies an important position in the agricultural economy, accounting for production of 27.51 million tons of nine cultivated oil seeds during the year 2014-15 (November-October) as per Final Estimates released by the Ministry of Agriculture on 09.05.2016. India contributes about 6-7% of the world oilseeds production. Export of Edible oils was 38317.56 tons in the financial year 2014-15 valued at Rs 46040.37 lakhs.

Types of Oils commonly in use in India

India is fortunate in having a wide range of oilseeds crops grown in its different agro climatic zones. Groundnut, mustard/rapeseed, sesame, sunflower, linseed, niger seed/castor are the major traditionally cultivated oilseeds. Soyabean and sunflower have also assumed importance in recent years. Coconut is most important amongst the plantation crops. Efforts are being made to grow oil palm in Andhra Pradesh, Karnataka, Tamil Nadu and North- Eastern parts of the country in addition to Kerala and Andaman & Nicobar Islands. Among the non-conventional oils, rice bran oil and cottonseed oil are the most important. In addition, oilseeds of tree and forest origin, which grow mostly in tribal inhabited areas, are also a significant source of oils.

Consumption Pattern of Edible Oils in India

India is a vast country and inhabitants of several of its regions have developed specific preference for certain oils largely depending upon the oils available in the region. For example, people in the South and West prefer groundnut oil while those in the East and North use mustard/rapeseed oil and Refined Soya Oil. Likewise several pockets in the South have a preference for coconut and sesame oil. Inhabitants of northern plain are basically consumers of fats and therefore prefer Vanaspati, a term used to denote a partially hydrogenated edible oil mixture of oils like soyabean, sunflower, rice bran and cottonseed and oils. Many new oils from oilseeds of tree and forest origin have found their way to the edible pool largely through vanaspati route. Of late, things have changed. Through modern technological means such as physical refining, bleaching and deodorization, all oils have been rendered practically colorless, odourless and tasteless and, therefore, have become easily interchangeable in the kitchen. Oils such as soyabean, cottonseed, sunflower, rice bran, palm oil and its liquid fraction- palmolein which were earlier not known have now entered the kitchen. The share of raw oil, refined oil and vanaspati in the total edible oil market is estimated roughly at 35%, 55% and 10% respectively. About 50% of domestic demand of edible oils is met through imports out of which palm oil/palmolein constitutes about 80%. The consumption of refined palmolein (RBD palmolein) has increased substantially over the years and is used extensively in hotels, restaurants and in preparation of wide varieties of food products.

Major Features of Edible Oil Economy.

There are two major features, which have significantly contributed to the development of this sector. One was the setting up of the Technology Mission on Oilseeds in 1986 which has been converted into a National Mission on Oilseeds and Oil Palm (NMOOP) in 2014. This gave a thrust to Government's efforts for augmenting the production of oilseeds. This is evident by the very impressive increase in the production of oilseeds from about 11.3 million tonnes in 1986-87 to 26.68 million tons in 2014-15. Most of the oilseeds are cultivated on marginal land and are dependent on rainfall and other climatic conditions. The other dominant feature which has had significant impact on the present status of edible oilseeds/oil industry has been the program of liberalization under which the Government's economic policy allowing greater freedom to the open market and encourages healthy competition and self regulation rather than protection and control. Controls and regulations have been relaxed resulting in a highly competitive market dominated by both domestic and multinational players.

Export Import Policy on Edible Oils

In order to harmonize the interests of farmers, processors and consumers and at the same time, regulate large import of edible oils to the extent possible, import duty structure on edible oils is reviewed from time to time. Current import duties on crude and refined edible oils are 12.5% and 20% respectively.

Export of edible oils had been banned w.e.f. 17.03.2008. However, w.e.f. 05.02.2013, castor oil, coconut oil from Electronic Data Interchange (EDI) ports and through notified Land Custom Stations, edible oils produced from minor forest produce and organic edible oils have been exempted from the prohibition on export of edible oils. Export of edible oils has been permitted in branded consumer packs of upto 5 kg, subject to a minimum Export Price of USD 900 per MT w.e.f. 06.02.2015. Export of Rice Bran Oil in bulk has been exempted from the ban w.e.f. 06.08.2015

Focus on Brands and packed goods

The Indian housewife, both in the urban and rural sector is becoming increasingly conscious about quality and purity, thus demanding branded edible oil products. This has resulted in a shift of the Indian consumer from loose and adulterated edible oils to branded offerings. With increasing quality consciousness, rising incomes and consolidation, branded sales are likely to grow at 25-30% over the next few years.

As per feedback and response, we believe that consumers relate our brands with purity, smell and taste. Gokul Refoils' flagship brands

Gokul, Rozana, Gurjari and Bakery Brands performed exceptionally well in the current year. Today, Gokul is positioned as the premium brand for the loyal housewife while Rozana is affordable brand. All major brands of Gokul Refoils reported robust growth for the year. Today, nearly 65% of the Company's edible oil sales come from the branded segment and retail sales are also significantly increasing in the proportion.

Marketing & Distribution Strategy

The Company is following a threefold strategy for increasing sales, penetrating newer markets and strengthening the market share and brands in its current markets. Integrated manufacturing facilities supported by a strong distribution network would allow the Company to increasingly focus on branded retail sales.

The FMCG edible oil market can be divided in two Sections in India- urban and rural. During the year, Gokul Refoils developed a twin strategy for both these markets. Also, it sees significant growth opportunity coming from urban areas which are currently under-penetrated and not exposed to its brands and products in the future. As an initiative to increase its branded sales proportion and visibility of products in the urban markets, the Company has placed its products in Big Bazaar and Reliance Retail.

The semi urban and rural markets are under-penetrated, scattered and operate through "mom and pop" stores. Thus distribution and reach are critical to ensure products reach the consumers. Gokul Refoils is creating a pan-India distribution and retail network both in cities and in the interior heartlands through a combination of C&F agents, distributors and local retailers deepening our retail penetration.

With a well spread and intricately connected distribution network the Company has a well established presence in the states of North East states, West Bengal, Bihar, Jharkhand, Orissa, Maharashtra, Uttar Pradesh, Uttaranchal, Madhya Pradesh, Delhi, Punjab, Haryana, Himachal Pradesh, J&K, Rajasthan and Gujarat.

Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the company as at 31st March 2016 and its profit and its cash flows for the year ended on that date.

EMPHASIS OF MATTER

Without qualifying our opinion, attention is drawn to Note no.32 relating to the Composite Scheme of the Arrangement between the Company and Gokul Agro Resources Ltd and Gokul Agri International Limited and creditors and their respective shareholders sanctioned by Hon'ble High Court of Gujarat in current year pursuant to which, an amount of Rs.Nil relating to current year (Previous year Rs.1756.64 Lakhs) has been debited to Capital Reserve as per the details given in note no 32.

Had the scheme, approved by Hon'ble High Court, not prescribed the accounting treatment as described in note no.32, the accumulated balance in the Revaluation Reserve account as at March 31, 2016 would have been higher by Rs. 1,756.64 Lakhs, the accumulated balance in Statement of Profit and Loss as at March 31, 2016 would have been lower by Rs. 1,756.64 lac, the balance in Revaluation Reserve would have been Rs. 8,081.12 Lakhs as against to Rs. Nil and the balance in Capital Reserve would have been Rs. Nil.

However, the aggregate balance in Reserves and Surplus as at March 31, 2016 would have remained the same.

**ANNEXURE - A TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON
THE STANDALONE FINANCIAL STATEMENTS OF GOKUL REFOILS & SOLVENT LIMITED.**

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Gokul Refoils & Solvent Limited ("the Company") as of 31st March 2016 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI)". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any

evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on, "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Meaning of Internal Financial Controls Over Financial Reporting

A Company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding company, its subsidiary companies incorporated in India and its associate company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2016, based on, "the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
